DETAILED ACTION

Applicant's amendment dated 10/9/03 has created in substance two independent and distinct inventions, necessitating the below restriction:

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-10, drawn to a system for obtaining a rebate, classified in class 700, subclass 90+.
- II. Claims 11, 12, 14, 15, 17-21, drawn to a method of tax preparation, classified in class 705, subclass 31.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the method can be practiced by human intervention, e.g., using cash as the rebate and transferring by hand depositing the cash in an account maintained by the spending vehicle.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
